

ESRC Festival of Social Science 2010

The Changing Face of Scotland

Thursday 18th March 2010
10am-4pm

Sensation
Dundee Science Centre
Greenmarket
Dundee

As part of the ESRC Festival of Social Science 2010, this event will explore the change and pattern of migration within Scotland using available data sources and consider implications for resources and services.

Workshops will demonstrate the practical application of SCROL and Scottish Neighbourhood Statistics.

The event is aimed at those working within local authorities or voluntary organisations, however it is open to anyone interested in the topic and is free to attend.
